

Who We Are

The Shelby County Schools Mental Health Center is licensed by the Tennessee Department of Mental Health and Substance Abuse Services (TDMHSAS) to provide outpatient prevention, early intervention, and treatment services for students who are struggling with behavioral and emotional challenges. Our work creates a vital link between family, school, and community, helping remove psychosocial barriers to academic success.

Shelby County Schools Mental Health Center

Our Mission

The mission of the Shelby County Schools Mental Health Center, is to remove barriers to academic achievement, foster school success, and promote safe and supportive schools for our students.

Students with mental health conditions have the highest dropout rate of any disability group.

Our Services

Our licensed school social workers and school psychologists offer an array of school-based mental health services including:

- Individual, group, and family therapy
- Alcohol and drug intervention
- Social-emotional learning groups
- Functional-Behavioral Assessment and Behavioral Intervention Planning
- Emergency/crisis response
- Threat Assessment
- Parent and teacher consultation
- Classroom prevention activities
- Summer programs

Scheduling

All services are free of charge for SCS students. Contact your Professional School Counselor to schedule an appointment with one of our licensed school social workers or psychologists.

Mental health challenges affect one in five U.S. children.
